- VEHICLE STATIONARY
- IN CAB TEST VIA THE TACHOGRAPH
- CLEAR DIGITAL SPEED DISPLAY
- SELF POWERED
- HAND OPERATED
- FULL SET OF CABLES SUPPLIED
- COMPACT CARRY CASE INCLUDED
- FULL INSTRUCTION MANUAL SUPPLIED
- BATTERY CHARGER INCLUDED

1. Effortless Testing

The Speed Simulator checks the limiter at speed setting. All tests can be carried out In Cab via the Tachograph with the vehicle stationary.

2. Capability

The Speed Simulator works with the majority of electronic tachographs in the marketplace. User unauthorised to break tacho legal seals can use via VR 8400 & VDO 1314/1318. User with authorisation to break seals can also use with VR 2400 & VDO 1319/1324.

3. Pre Test Inspection

The Speed Simulator enables a vehicle pre-test to be carried out prior to the vehicle inspection, ensuring the vehicle is presented for test with the RSL operating at the required speed.

4. Complete Kit

The Speed Simulator tests via the Tachograph and comes with a full range of cables and connectors to allow connections to the above types of electronic tachographs. Everything required is supplied in the compact carry case provided.

5. Cost Effective

Eliminates unnecessary vehicle downtime by ensuring first time pass at Annual Test.

6. Display

Clear, easy to read LCD display.

7. Self Powered

Rechargeable battery.

Kit Includes
